

Ausicht von oben:

$$\tan(\varphi_1) = \frac{\frac{b}{2}}{c} = \frac{\frac{b}{2}}{d}$$

$$\Rightarrow b = \frac{b_b \cdot d}{c}$$

Ausicht von der Seite:

$$\tan(\varphi_2) = \frac{\frac{h}{2}}{c} = \frac{\frac{h}{2}}{d}$$

$$\Rightarrow h = \frac{h_b \cdot d}{c}$$
